Texas and Colorado

Mr. Stout has been involved in surveying since 1992 with experience in title research and boundary work. He is currently responsible for preparing specifications, acquiring, coordinating and reviewing of Land Title Surveys for single and multi-site transactions.

He has performed numerous Land Title Surveys in Oklahoma and surrounding states. He has experience with the latest electronic equipment including Global Positioning Systems (GPS). His experience includes office and field work on commercial, residential, subdivision design and layout.

Cliff received his Associates degree in Surveying Technology from Oklahoma State University in 1997 and currently serves at OSU as Adjunct Associate Professor.

Cliff is an active member of the Oklahoma Society of Land Surveyors where he has served as a Board Member. He is working in conjunction with OSU and OSLs to improve the land surveying program at the university.

Cliff and his wife Kelly are the proud parents of four boys. They like to camp and go to the lake, swim and water ski. He and his family are actively involved in their local church and Sunday school class. Hobbies include basketball, hunting and fishing.
